

## THE LIVING CHURCH: YOUR ARK IN JACOB'S TROUBLED TIME

By Pastor Dan Gayman

Are you building an ark of safety for the time of trouble soon to visit America? Visionary souls clearly see the U. S. Government floundering out of control. Many families are fleeing the United States in anticipation of a complete breakdown of society. Others believe that financial collapse and social upheaval will force the U.S. Government to put security force on the streets of America to enforce order. *The Army Times*, Sept. 8, 2008, reported that the 3<sup>rd</sup> Infantry Division's 1<sup>st</sup> Brigade is being trained to use against American civilians for "civil unrest" and "crowd control." Many believe the Wall Street meltdown will eventually bring "Main Street USA" to her knees, causing people to take to the streets and look for politicians' heads. Will the non-white ghettos of America explode in racial upheaval should food shortages begin? Are you prepared for the unraveling of our American society? What about your children? Have you thought about an ark of safety?

There is clear evidence that the United States of America is very much like the great *Titanic* that floundered in the North Sea after hitting a massive iceberg in 1912. The unsinkable *Titanic*, filled with numerous wealthy, well-educated people (many of them believers) suddenly did what everyone thought was impossible. The *Titanic* sank in a very short time. Hundreds aboard that ship sank into the cold, watery grave. America is very much like the *Titanic*. We have been floundering on the sea of spiritual, moral, political, economic, and social confusion, with every indication that the America we once knew and loved can never recover from the tidal waves dashing our national shores.

### A CANDID LOOK AT WHERE WE ARE

A long succession of government policies that both the Democratic and Republican parties fostered with their Jewish financier/counselors has placed our nation in economic, social, and demographic jeopardy. With only minor differences, both major political parties have taken us toward moral and economic bankruptcy. And that is not all! Without a whimper of protest, politicians and their parties have supinely watched the invasion of the United States by upwards of sixty million **third-world non-white** immigrants since 1965. They have led us into costly, protracted wars of "democratic liberation" in Iraq and Afghanistan, while leaving the United States unprotected and under massive invasion from Mexican nationals who colonized the American Southwest, with roots running to all corners of America, while no one was looking.

A succession of American politicians—Democratic and Republican—have engineered, participated, and/or acquiesced in removing biblical, statutory laws that banned abortion, sodomy, race-mixing, and other heinous crimes. Activist judges sitting on the US Supreme Court and at Appellate and Federal District Courts have made a shambles of the United States Constitution and have used their office to destroy the moral and spiritual foundations of America to the ground.

Insatiable greed and debts owed to powerful lobby groups have caused average Americans to completely question, disregard, and mistrust politicians. Most of those elected to public office on the national level ultimately sell their political souls to gain re-election. The confidence we place in our public officials at the national level has reached the lowest approval rating in our nation's history.

The arrival of millions of third-world non-whites onto American soil poses a clear danger for not only this generation, but especially for future generations of Caucasian Americans. These third-world souls share none of the moral and Christian values long-standing with other Americans, but instead bring with them an assortment of heathen gods, cultures, languages, and mores in direct conflict with historic, American, biblical values. Our nation is faced with increasing social unrest, massive unemployment, failing government entitlements, and a welfare class that will take to the streets and set American cities on fire at a moment's notice. Only a thin veneer of civilization prevents this non-white, third-world population from exploding in the face of our politicians.

If the United States moves toward economic depression, massive unemployment, food shortages, and a curtailment of utilities including electricity, gas, and water, our urban centers will become tinder for social unrest, rioting, violence, and unparalleled civil disorder. Heavily populated areas of the United States will become extremely dangerous. Electricity, water, and gas may become non-existent. Major highways may become heavily policed and difficult to navigate. Worst of all, our politicians may have already confiscated guns from law-abiding Americans—leaving only criminals and thugs with the guns and ammunition. Think about that!

### **DO YOU HAVE AN ARK?**

Visionary people must have the spiritual insight and presence of mind to look ahead and anticipate what must be done before it becomes too late. One does not need to be all that bright to sense some very difficult days ahead in our beloved America. Most Americans, at least those living in this generation, have not faced truly tough times. However, those who lived through the Great Depression (1929-1939) and through World War II have vivid memories of the hard times into which people were thrust. Americans born since 1960 have seldom faced truly difficult conditions, such as food shortages, gasoline rationing, no electricity, and a third-world existence. We are indeed a spoiled generation. If all of the amenities and luxuries we take for granted were suddenly gone, we would soon see another side of America that few today can imagine.

So, I ask this question: are you trying to build an ark of safety? What is your plan? Where is life taking you? Are you moving in the will of God? Are you reading your Bible faithfully and prayerfully, seeking the wisdom and leading of the Holy Spirit? Do you have good counselors? Do you talk with wise people? Do you have a circle of trusted friends for fellowship? Do you have a church family? Better still, do you have a church community? Do you know your neighbors? Do they share your ethnicity, heritage, faith, and worldview? How protected are you and the children you love?

More than four millennia ago, a faithful member of our ethnic heritage and faith could foresee a time of trouble coming. He was a man who cherished his family and set about to provide for them before impending disaster and judgment came. This man walked in justification before a Holy God with his sin debt settled in sacrifice before his Creator. He had maintained his genetic bank so his offspring, by not participating in the race mixing of his generation, would remain in covenant with their Creator. Finally, this man walked with God in daily communion. Through prayer and worship, Noah became a visionary man who found grace in the eyes of his Lord. This gift of grace enabled Noah to have the vision to build an ark to the saving of himself, his family, and their seed, as well as that of other life forms, to continue life after the Flood of judgment. The Bible tells us, ***“By faith Noah, being warned of God of things not seen as yet, moved with fear, prepared an ark to the saving of his house; by the which he condemned the world, and became heir of the righteousness which is by faith”*** (Hebrews 11:7).

These questions seem appropriate: do you believe you are being warned of things not yet seen? Do you have a certain amount of the wholesome fear of God within you? And, do you believe that you have some responsibility to build or find an ark to survive the deluge of evil and judgment coming upon America? Have you answered the hard questions that may need to be asked if American society comes unraveled? Will you be able to manage the most basic necessities of life? What about your children and other extended family members? Will you go down like the Titanic, or will you seek the refuge of a lifeboat? This is a Mayday call! Are you listening?

## **THE HISTORIC ARK**

**The church of which Jesus Christ is the Savior and Head has been the ark for Christians during the last two thousand years.** This church survived the collapse of the Imperial Roman Empire. After 476 A.D. when Rome fell to the invading Gothic (Israelitish) tribes, the church of Jesus Christ became the ark around which civilization continued. The invading armies that brought Roman civilization to dust eventually were converted to Christianity. Thus, the church survived the fall of Rome.

When life became intolerable in England in the early years of the 17<sup>th</sup> Century, visionary Christians formed themselves into a church built upon Jesus Christ, the Rock, boarded a ship, and sailed for the New World. They had a vision! That vision was to plant the church of Jesus Christ in the New World and build a Christian nation. Their immediate goal necessitated that they board ship and get to the New World to plant a colony. Their plan upon arrival was to worship God, build houses, plant gardens, multiply children, and take dominion of this New World. The Pilgrims and the thousands of Puritans that followed them in the early 1600s laid the foundations for everything that turned out to be biblical and Christian in America to this very day.

## **THREE POTENTIAL SCENARIOS**

One of three scenarios is likely to unfold in America in the near future:

**One:** America will undergo the effect of **Brazilification**, where this nation will become a melting pot of every race under heaven. The white race will be swallowed in the surging, non-white population, and the whole country will be dumbed-down and become much like modern Brazil. Study modern Brazil closely, and you may see the future of America. You have to know that Brazil has been blessed with abundant natural resources; but ethnic bankruptcy has kept the nation from doing what the Caucasians did in North America.

Brazil is the fifth largest country in the world, just slightly smaller than the United States, and is larger than the entire continent of Europe. It contains some of the greatest continuous forestland in the world, has huge deposits of iron and other minerals, and one of the largest river systems of the entire world. It is one of the largest producers of corn, soybeans, and cotton in the whole world, yet with all of its abundant resources, Brazil has never been a world power! Why? Check out the racial composition of this country, and you will find the answer! Brazil contains hues of many different races and has no genetic bank of Caucasian DNA to make it what the USA is (or, should I say, was!). Many biblically oriented anthropologists see America as the second Brazil in the Western Hemisphere, with the original, homogenous, Caucasian race simply being absorbed into the non-white races filling our landscape.

**Two:** We could witness the **Balkanization** of America, where the nation divides into racial, cultural, religious, and linguistic political states rife with hostility and given to radical forms of ethnic cleansing. This racial balkanization may follow the pattern set in Yugoslavia, where the country divided into different ethnic and religious groups. Yugoslavia, just a little larger than Wyoming, includes Slovenia, Croatia, Bosnia-Herzegovina, Serbia (including Kosovo), Montenegro, and Macedonia. The country is nothing more than a boiling pot of ethnic and religious stew. Is that what multiculturalism will bring to America?

This country has several different languages and three different religious faiths. As you know, American troops are now garrisoned there to keep peace between the warring Christian Serbs and the Muslims who occupy much of this country. There is always the possibility that America could be carved into many ethnic countries—Black, Mexican, Asian, Muslim, American Indian, and Hindu, with the White minority left to wander as nomads without any corner to call their own. Discrimination against Whites in America is already a fixed social pattern.

**Three:** America could drift into anarchy, an all-out **Civil War**, with race wars, ethnic cleansing, religious and cultural wars, and even foreign invasion from the Chinese. Have Mexicans not already invaded and overrun us? Who foreign invader is next? Will the millions of Muslims already on our soil run a guerilla-style offence of terror against the US? Will the “hate America” militants of every dark race on the planet invade this country?

## **BUILD THE ARK NOW—NOT LATER!**

Now is the time for spiritual and visionary thinking! Without a vision, the people perish (Proverbs 29:18). What is your vision? Once you establish a clear vision, write it down plainly on a tablet (Habakkuk 2:2-3). Then move forward with your goal! What is the most immediate goal you need to meet? Put legs under your vision. Suppose the historic ark, the living church, is your vision. The goal then is to gather folks of like ethnic heritage, faith, and worldview into one spiritual body of which Christ is the Head. You then have a church! Having established a **vision** and then a **goal**, you are ready to build a **plan**. The plan must contain all the essential details of how this vision can be fulfilled.

## **THE VISION, THE GOAL, THE PLAN**

Let Nehemiah be your guide to a vision, a goal, and a plan. Nehemiah had a vision of securing the defenseless and run-down city of Jerusalem. His goal was to rebuild the walls around Jerusalem. His plan was to divide all willing Hebrew/Israelites into work details, each assigned to a particular section of the wall, and build it with great speed before his distracters could organize and destroy his vision, his goal, and his plan. Guess what! They completed this incredible project in fifty-two days! A man with a vision, a specific goal, and a plan can!

What about you? Are you ready to build your own ark? Are you ready to join others already working on the ark? Or do you have a vision that is better than the church as an ark of survival? If so, would you share that vision with us and others as soon as possible? The titanic of nations is floundering on the high seas of spiritual apathy, moral decadence, political paralysis, economic meltdown, and racial genocide! Will you board the lifeboat or go down with the ship? We report! You decide! May Jehovah God help us all to hold on to **Jesus Christ, our faith, our ethnic heritage, and our moral values and remain steadfast, anchored in the Word of God**, in one of the wildest rides in the history of our covenant people!
